Early Childhood Family Education offers classes for parents and their children ages newborn to not yet in kindergarten. Even if your child is enrolled in a preschool class, ECFE is a great opportunity for you to spend quality time with your child.

ECFE is based on the belief that parents are a child's first and most important teachers and the home is a child's first learning environment. Most classes offer a time for the parents and children to interact together followed by a parent discussion group where you have a chance to share the joys and concerns of raising young children.

Fees can be waived with no questions asked. Check out the Underwood ECFE on Facebook.

PRESCHOOL TRANSITION

ECFE is a great transition for children who will be entering three year old preschool next year. They get a chance to know the teachers, the classroom, the bathrooms, and all of the new items in the school environment. We have seen that the children who have attended ECFE with their parents before attending preschool, have such an easier time adjusting to the new routine and start learning right away. No tears and no worries! Attend Monday morning or evening classes.
